

cell killing

killing by host of  
symbiont cells

collateral sprouting

negative regulation of  
developmental growth

leukocyte mediated cytotoxicity

collateral sprouting

killing of cells in  
other organism involved  
in symbiotic interaction

leukocyte mediated  
cytotoxicity

regulation of  
collateral sprouting

negative regulation  
of neurogenesis

positive regulation of  
immune effector process

positive regulation of mast cell activation

regulation of immune  
effector process

positive regulation  
of hormone secretion
